

PRESS RELEASE

REPORTER MISTAKENLY QUOTED 50% SALARY INCREASE INSTEAD OF 15%

We recall a newspaper report which appeared in the September 03, 2013 edition of the Daily Graphic, in which the writer sought to impress that, our then new Managing Director, Ing. Noble John Appiah had given assurance that staffs of Metro Mass were to enjoy a 50% salary increase.

The erroneous figure which should have read 15% has become a bargaining chip for the Union of Metro Mass.

Management categorically denies the purported promise and advises all staff and the general public to debunk it and disabuse their minds on it.
